# AMERICAN FEDERATION OF LABOR RECONSTRUCTION PROGRAM.

The world war has forced all free peoples to a fuller and deeper realization of the menace to civilization contained in autocratic control of the activities and destinies of mankind.

It has caused a world-wide determination to overthrow and eradicate all autocratic institutions, so that a full measure of freedom and justice can be established between man and man and nation and nation.

It has awakened more fully the consciousness that the principles of democracy should regulate the relationship of men in all their activities.

It has opened the doors of opportunity through which more sound and progressive policies may enter.

New conceptions of human liberty, justice and opportunity are to be applied.

The American Federation of Labor, the one organization representing Labor in America, conscious that its responsibilities are now greater than before, presents a program for the guidance of Labor, based upon experience and formulated with a full consciousness of the principles and policies which have successfully guided American trade unionism in the past.

## DEMOCRACY IN INDUSTRY

Two codes of rules and regulations affect the workers; the law upon the statute books, and the rules within industry.

The first determines their relationship as citizens to all other citizens and to property.

The second largely determines the relationship of employer and employe, the terms of employment, the conditions of labor, and the rules and regulations affecting the workers as employes. The first is secured through the application of the methods of democracy in the enactment of legislation, and is based upon the principle that the laws which govern a free people should exist only with their consent.

The second, except where effective trade unionism exists, is established by the arbitrary or autocratic whim, desire or opinion of the employer and is based upon the principle

BY THE INDUSTRIAL WORKERS OF THE WORLD.

This leaflet we address to those wage-earners who are awake to the fact that the present situation of the working class is a desperate one. We address those who can look about and see for themselves that to-day the working class, notwithstanding all the hardships it has suffered during its strikes, boycotts and lockouts, is losing ground. Fellow workers, we trust that after the experience we have been making and in view of the future that we see before us, you will be eager to look into the reason for this state of affairs—there is a reason for it, and the reason lies near at hand. The workers have not been properly organized.

In this address we explain why the old form of unionism; that is to say, pure and simple craft or trade unionism, is inefficient, and we also indicate something of the power there is in Industrial Unionism.

In a sentence or two we cannot define, so you may understand, the differences between Industrial Unionism and pure and simple craft unionism; those differences are too many and too deep-rooted; they involve differences of principle, differences in the construction of our respective organizations, differences in our aims, and differences in the methods that shall be employed in the pursuit of our ends. Therefore, we shall not attempt to lay down a few short definitions of the differences between craft unionism and Industrial Unionism; but we shall explain by example what manner of organization the Industrial Workers of the World is, and, if you will carefully follow us in this explanation, you will be able to clearly understand wherein Industrial Unionism is superior to craft unionism.

## SPECIMENS OF CRAFT UNIONS.

An example of what we call craft or trade unionism is best seen in the American Federation of Labor style of organization. Labor organized in that manner could, in the early stages of capitalist development, operate against the employer with greater or less success; but craft unionism, always defective, with the development of capitalism has deteriorated, until, from the point of view of the working class, it is now a practically worthless thing. In part, the reason for this deterioration of the unions comprising the American Federation of Labor, as well as the old Railroad Brotherhoods and other such independent unions, all of which present one and the same type of unionism—the reason for the deterioration of those unions, in part grows out of the trustward development of capitalist institutions, and, for the rest, it is due to the wrong foundation upon which pure and simple craft unionism is built.

## STRIKERS VICTORIOUS IN EARLY DAYS.

Twenty-five or thirty years ago, a good many strikes took place against small business men, owners of comparatively small shops, stores, etc. At that time it was unnecessary to paralyze the entire industry of the community in order to bring pressure to bear upon the employer. The strike was declared against him and his business was boycotted. He saw in the union and the union leader nothing but an enemy; he fought his fight alone; he saw his shop standing idle; such supply of goods as he may have had on hand was soon exhausted; he saw himself the immediate loser of money that he ought to have made by filling the orders of his customers, and more than that he felt himself the ultimate loser because his customers were going over to his competitors and their future patronage was becoming lost to him altogether. Many of his expenses were also going on the same as ever, but he didn't find the streets filled with men hungry for jobs, and he didn't [illegible]

# The Truth About the I. W. W.

## By HAROLD CALLENDER

EDITOR'S NOTE: Harold Callender investigated the Bisbee deportations for the National Labor Defense Council. He did it in so judicial and poised and truth-telling a manner that we engaged him to go and find out for us the truth about the I. W. W., and all the other things that are called "I. W. W." by those who wish to destroy them in the northwest.—The Masses.

*Die Photo Co., Tacoma*

THIS GROUP OF WELL-KNOWN WESTERN I. W. W. MEN WERE BROUGHT TO CHICAGO HAND-CUFFED AND LEG-IRONED
Back Row—J. P. Thompson, George Hardy, John Foss, Walter Smith.
Front Row—J. A. McDonald, Harry Lloyd, T. J. Doran.

ACCORDING to the newspapers, the I. W. W. is engaged in treason and terrorism. The organization is supposed to have caused every forest fire in the West—where, by the way, there have been fewer forest fires this season than ever before. Driving spikes in lumber before it is sent to the sawmill, pinching the fruit in orchards so that it will spoil, crippling the copper, lumber and shipbuilding industries out of spite against the government, are commonly repeated charges against them. It is supposed to be for this reason that the states are being urged to pass stringent laws making their activities and propaganda impossible; or, in the ab-

# THE COMMUNIST INTERNATIONAL TO THE I. W. W.

## An Appeal of the Executive Committee International at Moscow.

Comrades and Fellow-Workers!

The Executive Committee of the Communist Internationale in session at Moscow, the heart of the Russian Revolution greets the revolutionary American proletariat in the ranks of the Industrial Workers of the World.

Capitalism, ruined by the World War, unable any longer to contain within itself the tremendous forces it has created, is breaking down.

The hour of the working class has struck. The Social Revolution has begun, and here, on the Russian plain, the first vanguard battle is being fought.

History does not ask whether we like it or not, whether the workers are ready or not. Here is the opportunity. Take it—and the world will belong to the workers; leave it—there may not be another for generations.

Now is no time to talk of "building the new society within the shells of the old." The old society is cracking its shell. The workers must establish the Dictatorship of the Proletariat, which alone can build the new society.

An article in the One Big Union Monthly, your official organ, asks, "Why should we follow the Bolsheviks?". According to the writer, all that the Bolshevik Revolution in Russia has done is "to give the Russian people the vote."

This is, of course, untrue. The Bolshevik Revolution has taken the factories, mills, mines, land and financial institutions out of the hands of the capitalists, and transferred them to the whole working class.

We understand, and share with you, your disgust for the principles and tactics of the "yellow" Socialist politicians, who, all over the world, have discredited the very name of Socialism. Our aim is the same as yours, —a commonwealth without State, without Government, without classes, in which the workers shall administer the means of production and distribution for the common benefit of all.

We address this letter to you, fellow-workers of the I. W. W. in recognition of your long and heroic service in the class war, of which you have borne the brunt in your own country, so that you may clearly understand our Communist principles and program.

We appeal to you, as revolutionists, to rally to the Communist Internationale, born in the dawn of the World Social Revolution.

We call you to take the place to which your courage and revolutionary experience entitles you in the front ranks of the proletarian Red Army fighting under the banner of Communism.

### COMMUNISM AND THE I. W. W.

The American Capitalist class is revealing itself in its true colors.

The constantly rising cost of living, the growing unemployment, the savage repression of all efforts of the workers to better their condition, the deportation and imprisonment of "Bolsheviks," the series of
